We Announce an Extraordinary Dispersal of Tailored and Dress Hats at \$5.00 for Choice

These hats are at present marked \$6.75 to \$8-sabings aberage ober one-third.

B66666OMORROW at store opening we place on sale about 100 hats that have been marked \$6.75 to \$8 at \$5 for choice. These hats are taken directly from our regular stock. They were not purchased for mere sale purposes, but were intended to retail at from \$6.75 to \$8.00. We find now that our stock is too large, and have adopted this extreme and radical method of reducing it to normal size. Even at \$6.75 and \$8.00 these fine hats were excellent values, and better than most stores would offer you. Tailored and dress hats are included, in a variety of the newest, most charming models. You'll have no difficulty in selecting from this assortment precisely the hat you most desire—and you'll be getting one

of the greatest millinery bargains offered this season. These hats are all new, stylish and becoming models of great beauty and excellence. No matter how lovely a hat may be, if it is not personally becoming to you, it obviously is not the hat for you. Yet many stores sell hats that pass muster for beauty, but fall down when it comes to becoming their wearers; they seem to lack an indefinite something—the creative brain of a great designer, or perhaps the deft touch of an expert millinery creator. These hats that we're offering special at \$5 are becoming above everything else you'll be certain to find a hat in the assortment to please you- a delightfully charming hat that suits your taste preference and individually becomes you. Every one of these hats is the production of a great millinery artist-many are modeled on the productions of world-famous designers. Each one is a true work on art. And though they have been marked at \$6.75 to \$8.00 and are really worth more than that.
